Dear colleagues

We are over two years into the pandemic, which has totally changed our continuing education and training programme. We all long for a return to normality, training in the old tradition of face-to-face meetings and collegial exchanges during and outside official events.

For the second half of the year, some headache societies have already switched their major congresses to hybrid – a face-to-face and/or virtual – meeting. For example, the MTIS Migraine Trust International Symposium 2022 will go hybrid.

Nevertheless, a virtual meeting offers a larger audience a participation or also for a spontaneous dial-up.

A group of headache experts from Switzerland will attend the symposium in London and summarise the most important scientific presentations, research results and highlights for you in a 2-hour virtual meeting. We would like to invite you to this subsequent virtual meeting with live broadcasting and the opportunity to exchange ideas with the experts.

Together with our sponsors we would therefore like to invite you to

Virtual Headache News from MTIS 2022
on Tuesday, 20th September 2022 from 18:00 – 20:00

Please see the registration information on the back page.

We are looking forward to a large number of participants!

Andreas Gantenbein
